This series is going to tackle the social aspect of our salvation. In other words, how we act out there in the world. Not in specifics but in a general sense of what we are about as believers in Christ. What does that look like…out there?

Many would argue that their religion shapes their social lives and for the most part I agree. But for others they do not know what to do with their faith in the marketplace. We are called to be in this world. Jesus prayed that prayer stating that we are certainly IN this world but we are not OF this world. Therefore, we should look different than those of it. Over the next 4 weeks let's explore what the Lord requires of us. Yes, He requires things of us. Contrary to the feel good gospel many preach we have a requirement on us for this grace in which we stand.
